What I love doing the most – learning!!

Level 3 Diploma in Health & Social Care for Adults

I have gained more knowledge and skills through all of the courses that I have completed with AHTA. This has increased my confidence to approach different situations within the workplace. I also feel more confident in passing my new knowledge on to my colleagues.

I have gained more discipline with my own time management. It has inspired me to progress within my career and apply for higher roles to achieve my career goals.

I have really enjoyed completing the courses. It has been one of the best companies that I have completed training with.

I have received lots of information, advice and guidance throughout my courses, the training I received was very informative and I have been able to apply it to my practice.

Overall I have really enjoyed my learning experience.

I would like to continue to learn with AHTA and would recommend them to others. I am so pleased to have achieved my level 3 diploma in health and social care as this will open the door for more opportunities.
